COMPANY PROFILE

Star Bottling was founded by two visionary brothers whose complementary strengths laid the foundation for the company's success. One brother Mr. Noordin Noorani was deeply passionate about product formulation, experimenting with blends and perfecting recipes using home-grown ingredients. The other Mr. Amin Noorani brought equal enthusiasm to marketing, focusing on building customer relationships, promoting the brand and managing the financial aspects of the business. Together, they nurtured Star Bottling through its formative years, establishing a strong presence in the market.

As the business evolved, it reached a stage of saturation, creating the need for fresh perspective and renewed direction. This turning point marked the entry of Mr. Amin Noorani's son, Mr. Azim Noorani in the year 2016 a dynamic young leader whose role goes far beyond titles such as founder or manager. His true strength lies in his multifaceted business acumen and hands-on approach across all aspects of the organization.

Starting with just a limited range of flavours, Azim has been instrumental in transforming Star Bottling into a growing and diversified brand. In 2025, the company expanded into the juice segment, marking a significant milestone in its journey. Today, with a portfolio of 20+ SKUs, Star Bottling continues to innovate and scale new heights, driven by a commitment to quality, creativity and customer satisfaction.

Our Strengths

- Wide and versatile product portfolio
- Consistent product quality and taste
- Strong distribution and market reach
- Efficient and scalable manufacturing setup
- Customer-focused approach
